Dr Katrina Webster

Dear contact.salutation contact.lastname,

A warm welcome to all—especially to our **new members** joining the **Australia New Zealand Regional Anaesthesia Group (ANZ-RA)**. We're delighted to have you with us and look forward to your contributions and engagement within our vibrant community.

We are an active group of regional anaesthetists who work together to learn and develop our skills and ensure best care for our patients.

ANZ-RA is the new name for the RA special interest group, and we still operate in cooperation with our parent bodies (the ASA, NZSA and ANZCA).

ANZ-RA has an executive with representatives from most states/territories in Australia and NZ. We produce a newsletter roughly twice each year, and support learning opportunities including the RA sessions at major conferences as well as stand alone courses.

ANZ-RA is proud to produce the Australasian Symposium of Ultrasound guided Regional Anaesthesia (ASURA) approximately each two years. The ASURA meeting this year was held in Hobart and was lots of fun, and our next ASURA meeting will be in Sydney 2028.

ANZ-RA aims for dynamic and productive academic partnerships with our equivalent international organisations (ESRA, ASRA, AOSRA etc). We have teaching and academic projects launched which bring together many energetic regional anaesthetists from around the world.

ANZ-RA provides a discussion forum (via Whats App) where our members can ask or answer tea room style questions relating to regional anaesthetic practice. The discussion forum is an excellent way for us to stay connected and to learn what is happening in RA practice around Australia and New Zealand. If you want to join in the discussion forum, you need to join up using the QR code below.

We hope you enjoy your regional anaesthesia practice and being a part of the ANZ-RA community.

Katrina Webster
ANZ-RA Chair
