

SAFE PROCEDURAL SEDATION COURSE

Target Audience

This course is intended for medical officers, dentists, and registered nurses providing conscious sedation in environments outside of the operating room including cosmetic procedures, endoscopy, dental and radiological procedures in hospitals and private practices

Description

The **Safe Procedural Sedation Course** incorporates pre-reading, interactive workshops and immersive simulation activities for a one day hands-on program exploring conscious sedation outside of the operating theatre.

The course content reflects the NSW Agency for Clinical Innovation (ACI) *Minimum Standards for Safe Procedural Sedation* and the Australian and New Zealand College of Anaesthetists (ANZCA) *PS09 Guidelines on Sedation and/or Analgesia for Diagnostic and Interventional Medical, Dental or Surgical Procedures*.

It includes:

- Pre-procedure patient assessment & risk stratification
- Monitoring and practical airway management
- Safe use of drugs and assessing levels of sedation
- Post procedure monitoring and discharge

Course Duration

This is a one day face to face program with pre-readings included prior to the course.

SCSSC Faculty

Our faculty includes medical specialists in emergency medicine, intensive care and anaesthesia. Our nurse educators are all critical care specialists.

ALS Pre-requisite

There is an expectation that participants are familiar with, and have completed Advanced Life Support within the last 12 months. For some sedation providers annual ALS is mandatory. Check with your professional group if this is a requirement for you.

The Safe Procedural Sedation Course can be combined with an ALS program on a separate day which complies with Australian Resuscitation Council (ARC) standards and comprises both online and face-to-face learning.

The SCSSC half day ALS programs are accredited by

- Northern Sydney Local Health District (NSLHD)
- Australian New Zealand College of Anaesthetists (ANZCA) – Activity # ER-14-CA-052
- Australian College of Rural and Remote Medicine (ACRRM) – Activity # 5618

Maximum Participants

12

Course Dates – 2021

March 25th
June 10th
September 16th
November 4th

Prices & Bookings

\$880 (GST inc) per person

Group Bookings: discounts available for groups of 6 or more. Additional group courses over 2 days which include ALS can be arranged. Please contact us.
